Steven Fine, YIPA Vice Chairperson

On the 3rd and 4th of October 2018, 26 Grade 11 learners from 13 schools around Khayelitsha took part in the 3rd Cape Town YIPA Job Shadow programme. The programme which launched in October 2017 has seen massive growth from the original 12 learners and aims to continue to grow with the recent successful launch of the Johannesburg YIPA Job Shadow programme which ran for the first time in October 2018.

On the 3rd of October the learners headed off excited to learn and experience the working world for the first time. This programme would not have been possible without our 14 amazing host companies, which included: AL&A, Aria Property Group, Aurecon South Africa, dhk Architects, Eris Property Group, Investec, MDA Projects, Old Mutual Property, Prodigious Construction & Property Development Consultants, Rabie Property Group, Redefine Properties, Spear REIT Limited, Talani QS and Uvest Property Group/Sitari Country Estate.

The learners came back from their first day with massive smiles on their faces after experiencing their first glimpse of the property industry. They learnt about the calculations that go into purchasing an investment property, the concepts of property management and what architectural renderings are used for with some even creating their own 3D models.

After getting settled in at their companies on the first day the learners were excited for their second day. Learners conducted site visits to see the basics of the construction process, learnt about some of the legislation needed to build and even did some building inspections.

Thanks to the massive efforts of the Western Cape Property Development Forum (WCPDF), UCT 100UP, YIPA and our incredible host companies, the programme was once again a massive success! Many of the learners walked away seriously considering pursuing a property-related field of study, which is testament to the fantastic work that our host companies did with the learners.

Through this once in a lifetime opportunity for young black learners, they have been inspired to achieve their dreams and we are evermore confident of the potential to build a property industry that is more representative of the South African demographics.
